AUDITOR'S REPORT TO THE MEMBERS

We have audited the annexed consolidated financial statements comprising consolidated Balance Sheet of **Mega Conglomerate (Private) Limited** (the Holding Company) and its subsidiary companies VMFG (Private) Limited, G4 Mega Pakistan (Private) Limited, Haleeb Foods Limited, Imperial Developers and Builders (Private) Limited, Karachi Properties Investment Company (Private) Limited and Hotel Metropole (Private) Limited ("the Group") as at June 30, 2017 and the related consolidated profit and loss account, consolidated statement of comprehensive income, consolidated cash flow statement and consolidated statement of changes in equity together with the notes forming part thereof, for the year then ended. We have also expressed separate opinions on the financial statements of Mega Conglomerate (Private) Limited, VMFG (Private) Limited, G4 Mega Pakistan (Private) Limited and Imperial Developers and Builders (Private) Limited. The financial statements of other subsidiaries were audited by other firms of auditors whose reports have been furnished to us and our opinion, in so far as it relates to the amounts included for such subsidiaries, is based solely on the reports of such other auditors.

These consolidated financial statements are the responsibility of the Holding Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

Our audit was conducted in accordance with the International Standards on Auditing and accordingly included such tests of accounting records and such other auditing procedures as we considered necessary in the circumstances and we report that;

- 1. The related party transactions disclosure relating to the Imperial Developers and Builders (Private) Limited (subsidiary company) has not been presented as required by IAS 24.
- 2. As disclosed in Note 38.2 to the consolidated financial statements, during the year, Karachi Properties Investment Company (Private) Limited (subsidiary company) had paid Rs. 19 million to one of its exshareholder and written off this amount as bad debt as the same is no more recoverable. In the absence of supporting information available the subsidiary company's auditor have not been able to conclude if this advance was provided to the ex-shareholder for the purpose of subsidiary company's business and whether the cost of writing off represent subsidiary company's business expenditure.
- 3. As disclosed in Note 6.1 to the consolidated financial statements, the Karachi Properties Investment Company (Private) Limited (subsidiary company) has not carried out fresh valuation to determine the fair market value of the investment property as at June 30, 2017 as required under International Accounting Standard (IAS) 40 Investment Property. However for the purpose of consolidation, fair market value of this property has been taken as the purchase consideration given by Imperial Developers and Builders (Private) Limited vide agreement dated March 27, 2017 to acquire the shares of Karachi Properties Investment Company (Private) Limited.

4. The subsidiary company, VMFG (Private) Limited has not charged impairment, if any, on the investment in shares of M/s Dynasel Limited due to the fact that the said matter is under litigation as disclosed in note 8 to the consolidated financial statement.

In our opinion, except for the effects of the matter described in above paragraphs, the consolidated financial statements present fairly the financial position of Mega Conglomerate (Private) Limited and its subsidiary companies as at June 30, 2017 and the results of their operations for the year then ended.

We draw attention to Note 1.5.1 in the consolidated financial statement, which indicates that Karachi Properties Investment Company (Private) Limited (subsidiary company) incurred a net loss Rs. 22,468,796 during the year ended June 30, 2017 and, as of that date, the subsidiary company's current liabilities which includes due to holding company, exceeded its current assets by Rs. 215,678,364. These events that may cast significant doubt on the subsidiary company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

The consolidated financial statements of the Holding Company for the year ended June 30, 2016 were audited by another firm of Chartered Accountants whose report dated October 08, 2016 expressed a qualified opinion thereon.

2 BASIS OF PREPARATION

2.1 Statement of compliance

During the year, the Companies Act 2017 (the Act) has been promulgated, however, Securities and Exchange Commission of Pakistan vide its circular no. 17 of 2017 dated July 20, 2017 communicated that the Commission has decided that the companies whose financial year closes on or before June 30, 2017 shall prepare their financial statements in accordance with the provisions of the repealed Companies Ordinance, 1984. Accordingly, these consolidated financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB) and Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan (ICAP) as are notified under the repealed Companies Ordinance, 1984, provisions of and directives issued under the repealed Companies Ordinance, 1984, shall prevail.

2.2 Basis of consolidation

Subsidiary

Subsidiary is an entity controlled by the Group. The financial information of the subsidiary is included in the consolidated financial statements from the date that control commences until the date that control ceases. The assets and liabilities and the profit and loss accounts transactions of the subsidiary have been consolidation on a line by line basis.

The accounting policies of a subsidiary company are changed, when necessary, to align them with the policies adopted by the Group.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised losses are eliminated, but only to the extent that there is no evidence of impairment.

2.3 Functional and presentation currency

These consolidated financial statements are presented in Pak Rupee, which is the Company's functional currency. Figures have been rounded off to the nearest thousand of rupees, unless otherwise stated.

3 USE OF ESTIMATES AND JUDGEMENTS

Not all of these significant policies require the management to make difficult, subjective or complex judgments or estimates. The following is intended to provide an understanding of the policies the management of subsidiary considers critical because of their complexity. Judgment of estimation involved in their application and their impact on these consolidated financial statements.

Estimates and judgments by management of the Group are continually evaluated and are based on historical experience. including expectations of future events that are believed to be reasonable under the circumstances. These judgments involve assumptions or estimates in respect of future events where the actual results may differ from these estimates.

The areas involving a higher degree of judgments or complexity or areas where assumptions and estimates are significant to the consolidated financial statements are as follows:

(a). Employees retirement benefits

The cost of defined benefit retirement plans is determined in subsidiary using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, future salary increases, mortality rates and future pension increases. All assumptions are reviewed at each reporting date.

(b). Useful life, residual value, pattern of flow of economics benefits and impairment

Estimate with respect to residual values and depreciable lives and pattern of flow of economic benefits are based on the analysis of the management of the Group. Further, the Group reviews the value of the assets for possible impairments on an annual basis may change in the estimates in the future might affect the carrying amount of the respective item of property, plant and equipment, with a corresponding effect on the depreciation charge and impairment.

(c). Taxation

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Thus, in the group, provisions are based on reasonable estimates taking into account the applicable tax laws and the decision by appellate authorities on certain issues in the past, wherever applicable.

Deferred tax assets are recognized by the group for all the deductible temporary differences to the extent that it is probable that taxable profit will be available against which the assets can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

(d). Provision for obsolescence of inventories

Provision for obsolescence of inventories, including stores, spares and loose tools and stock in trade is made on the basis of management's estimate of net realizable value and ageing analysis prepared on an item-by-item basis by the group.

(e). Provision for doubtful debts

Trade and other receivables at each reporting date are assessed whether provision should be recorded in profit and loss account for any doubtful receivables. Especially, judgment by management of the group is required in the estimation of the amount and timing of future cash flows while determining the extent of provision required. Such estimates are based on assumption about a number of factors including credit history of counter party. Actual cash flows may differ resulting in subsequent changes to be provisions.

(f). Trade receivables and impairment

The Group reviews its trade and other receivables at each reporting date to assess whether provision should be recorded in profit and loss account for any doubtful receivables. Especially, judgment by management is required in the estimation of the amount and timing of future cash flows while determining the extent of provision required. Such estimates are based on assumption about a number of factors including credit history of counter party. Actual cash flows may differ resulting in subsequent changes to the provisions.

Other areas where estimates and judgments are involved have been disclosed in respective notes to the consolidated financial statements.

ny

(g). Impairment of financial assets

The Group assesses whether there is objective evidence that a financial asset is impaired. An impairment exists if one or more events that has occurred since the initial recognition of the asset, has an impact on the estimated future cash flows of the financial asset that can be reliably estimated. Evidence of impairment may include indications that the debtors or group of debtors is experiencing significant financial difficulties, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

(h). Impairment of non-financial assets

The Group assesses whether there are any indicators of impairment for all non-financial assets at each reporting date. Non-financial assets are also tested for impairment when there are indicators that the carrying amounts may not be recoverable. For assets which can generally be sold in the market, the prevailing market price is used as an indicator of current recoverable amount. Technical analysis and market data is used to arrive at recoverable amount for specialized assets.

(i). Stock in trade

Provision for obsolescence of inventories including stores, spares and loose tools and stock in trade is made on the basis of management's estimate of net realizable value and ageing analysis prepared on an item-by-item basis

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies adopted in the preparation of these consolidated financial statement are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

4.1 Revenue

Service charges are recognised in the accounting period in which services are rendered.

Dividend income is recognized when the dividend is actually received.

Interest income is recognized on accrual basis in the profit and loss account using the effective interest method.

Rental and other income are recorded when significant risk and rewards are transferred. Rental income and other income are recorded on accrual basis.

4.2 Borrowing costs

Borrowing costs are profit or other costs incurred by the group in connection with the borrowing of funds. Borrowing cost that is directly attributable to a qualifying assets is capitalized as part of cost of that asset. All other borrowing costs are charged to profit and loss account in the period in which they are incurred.

4.3 Foreign currency transactions and translations

Monetary assets and liabilities in foreign currencies are translated into Pakistani rupees at the rate of exchange prevailing at the balance sheet date. Transactions in foreign currencies are converted into Pakistani rupees at the rates of exchange prevailing at the transaction date. Exchange gains or losses are taken to income when incurred.

Non-monetary items that are measured in term of historical cost in a foreign currency are translated using the exchange rates as at the date of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

4.4 Taxation

Current

The charge for current taxation is based on taxable income at the current rates of taxation after taking into account available tax credit and rebate, if any. Income for the purpose of computing current taxation is determined under the provision of tax laws

M2

Deferred

Deferred tax is provided for, using the balance sheet liability method, providing the temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amount used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities using tax rates enacted at the balance sheet date. Deferred tax asset is recognized only to the extent that it is probable that the future taxable profits will be available and credits can be utilized.

Deferred tax is calculated at the rate that are expected to apply to the period when the differences reverse, based on tax rates that have been enacted. The group takes into account the current income tax law and decisions taken by the taxation authorities.

Deferred tax is charged or credited in the profit and loss account, except in the case of items credited or charged to other comprehensive income / equity.

4.5 Property and equipment

Fixed assets are stated at cost less accumulated depreciation. Depreciation is charged to profit and loss account and capitalwork-in-progress applying the straight line method. Full month's depreciation is charged in the month of addition while no depreciation is charged in the month of deletion.

Maintenance and normal repairs are charged-off as and when these are incurred. Major renewals and improvements are capitalized.

Gains and losses on disposal of assets are included in profit & loss account.

4.6 Capital work-in-progress

Offices available in the project for self occupancy for future use and are classified as capital-work-in-progress. It comprises offices in the process of construction. Cost of capital work-in-progress comprises of cost of land, cost of direct material and appropriate overheads.

4.7 Investment property

Investment property are stated at cost less accumulated depreciation and impairment, if any, except leasehold land, which is stated at cost less impairment losses, if any.

Depreciation is charged to profit and loss account using the diminishing balance method at rates specified in note 6 to the financial statements. Depreciation on additions is charged from the month in which the asset is available for use and on disposals up to the preceding month of disposal.

4.8 Intangible assets

Costs that are directly associated with identifiable software products controlled by the group and have probable economic benefit beyond one year are recognized as an intangible assets.

Intangible assets are stated at cost less accumulated amortization and impairment losses, if any. These are amortized using the straight line method reflecting the pattern in which the economic benefits of the assets are consumed by the group.

Amortization is charged from the month of addition to the month preceding the month of retirement / disposal.

The amortization period for software is three years.

4.90 Financial instruments

4.9.1 Financial assets

The group classifies its financial assets in the following categories: at fair value through profit or loss, loans and receivables, available for sale and held to maturity. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at the time of initial recognition.

a) Financial assets at fair value through profit or loss

When securities classified as available for sale are sold or impaired, the accumulated fair value adjustments recognised as "Other comprehensive income" are included in the profit and loss account as gains and losses on disposal of short term investments. Interest on available for sale securities calculated using effective interest method is recognised in the profit and loss account. Dividends on available for sale equity instruments are recognised in the profit and loss account when the group's right to receive payments is established.

All financial assets are recognised at the time when the group becomes a party to the contractual provisions of the instrument. Regular purchases and sales of investments are recognised at trade date i.e. the date on which the group commits to purchase or sell the asset.

Financial assets are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value and transaction costs are expensed in the profit and loss account.

4.9.2 Financial Liabilities

All financial liabilities are recognised at the time when the group becomes a party to the contractual provisions of the instrument.

Financial liabilities, other than those at fair value through profit or loss, are measured at amortised cost using the effective yield method.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange and modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in respective carrying amounts is recognised in the profit and loss account.

4.9.3 Off-Setting Of Financial Assets And Financial Liabilities

A financial asset and a financial liability is offset and the net amount is reported in the financial statements if the group has a legally enforceable right to set-off the transaction and also intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

4.10 Investments

These include investments held-for-trading and those that are designated at fair value through profit or loss at inception. Investments are classified as held-for-trading if they are acquired for the purpose of selling in the near term. They are initially measured at fair value and changes on re-measurement are taken to profit and loss account.

4.11 Trade and other payables

Liabilities for trade and other amounts payable are carried at cost which is the fair value of the consideration to be paid in the future for goods and services received, whether or not billed to the group.

4.12 Trade debts and other receivables

Trade debts and other receivables are stated at cost less impairment losses, if any which equals to the fair value of the consideration to be received in future.

4.13 Provisions, Contingent assets & Contingent liabilities

Provisions are recognized when the group has a present legal or constructive obligation as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Contingent assets are not recognized and are also not disclosed unless an inflow of economic benefits is probable and contingent liabilities are not recognized and are disclosed unless the probability of an outflow of resources embodying economic benefits is remote.

4.14 Stores & Spares

Stores & Spares are stated at the lower of cost and net realizable value. The cost of inventory is based on moving average cost. Items in transit are stated at cost accumulated up to the balance sheet date. The group reviews the carrying amount of stores and spares on a regular basis and provision is made for identified obsolete and slow moving items.

4.15 Cash and cash equivalents

Cash and cash equivalents are carried in the balance sheet date at cost. For the purpose of cash flow statement, cash and cash equivalents comprise cash in hand and balance with banks on current and deposit accounts and short term running finance.

4.16 Earnings per share

The Group presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Group by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares.

6.1 Leasehold land and the building on leaseholc land together represents a property on which Hotel Metropole is situated. The last valuation of the property was carried out in 2014 by an independent valuer at Rs. 2,016,650,000. However, for the purpose of consolidation, fair market value of this property has been taken as the purchase consideration given by imperial Developers and Builders (Private) Limited vide agreement dated March 27, 2017 to acquire the shares of Karachi Properties Investment Company (Private) Limited

During 2011, the Government of Sindh through Cultural and Heritage Department (the Department) served a public notice which included the name of the Karachi Properties Investment Company (Private) Limited (KPI) restricting the demolition work on account of destruction of Protected Heritage under Sindh Cultural Heritage (Preservation) Act, 1994. Accordingly, the Company could not continue with the process of demolishing the structure in order to construct a plaza on the lease hold land.

During the year of 2016, Cultural, Tourism and Antiquities Department of Government of Sindh (CTAD) approved the redevelopment proposal submitted by the KPI subject to strict adherence to the undertakings given by the KPI including three major conditions which are i) construction of new project in accordance with applicable building regulations; ii) accessibility of general public to onsite museum, proposed to be established by the KPI, that will be located on the ground floor; iii) creating parking area for at least 1400 cars. On October 14, 2016, the Advisory Committee of CTAD also granted permission in principle to submit the development plan to Technical Committee of Sindh Cultural Heritage that will be submitted by the Company in due course.

On July 27, 2017, the judgment of Sindh High Court passed in favor of the KPI and the court has set aside the notice of CTAD and granted status-quo in respect of the property. further the court also highlighted that the notice of CTAD was in clear conflict with the Heritage Act, 1994.

PROVISION FOR TAXATION 31

	osing balance	98,137	95,037
The income tax assessments of subsidiary company (KPI) have been assessed including tax year 2013, however, KPI has filed va			

with the appellate authorities in respect of assessment years 1991 - 1992 to 2001 - 2002 which are pending.

These appeals relate mainly to:

- the reopening of the original assessment by the Inspecting Additional Commissioner (IAS) in respect of assessment year 1991-92 to (a) 1993-94 and 1996-1997 to 2000-2001 on the grounds that the income of the Company is subject to determination on the basis of Annual Letting Value of the property, resulting in additional tax liability of Rs.19,771,007. The Company filed appeals with the Income Tax Appellate Tribunal (ITAT) and the honourable High Court of Sindh, which were decided against the Company. The subsidiary company has, thereafter, filed an appeal with the Honourable Supreme Court of Pakistan which is currently pending adjudication.
- disallowance of various expenses in respect of assessment year 1994-95, 1995-96 and 2001-2002 resulting in additional tax liability (b) of Rs.11,911,912. The subsidiary company has filed appeals with the Commissioner of Income Tax therewith.

Although the subsidiary company is contesting the above mentioned issues at various levels, the management of the Company has made full provision there against. From the total demand of Rs. 31,682,919, the Company has paid Rs. 17,029,636 to Income Tax Authorities.

48 Financial Risk Management

The Group's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including currency risk, interest rate risk and other price risk). The Group's overall risk management programme focuses on minimizing potential adverse effects on the Company's financial performance. The overall risk management of the Group is carried out by the Board of Directors of the Group. The Board provides principles for overall risk management, as well as policies covering specific areas such as foreign exchange risk, interest rate risk and investment of excess liquidity. All treasury related transactions are carried out within the parameters of these policies.

48.1 Credit Risk

Credit risk represents the risk that one party to a financial instrument will cause a financial loss to the other party by failing to discharge an obligation. The Group is exposed to credit risk from its operational activities (primarily for trade receivables) and from its financing activities, including long term deposits, loans and advances, deposits with banks and financial institutions.

Concentration of credit risk arises when a number of counter parties are engaged in similar business activities or have similar economic features that would cause their abilities to meet contractual obligations to be similarly affected by the changes in economic, political or other conditions. The Group believes that it is not exposed to major concentration of credit risk.

The Group's gross maximum exposure to credit risk at the balance sheet date is as follows:

	2017	2016
FINANCIAL ASSETS	Rupees in tho	usand
Long term investment	200,433	200,433
Long term loan	8,348	11,744

Other receivables	6,813	94,083
Cash and bank balances	1,004,446	218,509
	1,376,032	640,122

48.2 Liquidity Risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due without incurring unacceptable losses. The Company's treasury department maintains flexibility in funding by maintaining availability under committed credit lines.

48.3 Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise four types of risk: interest rate risk, currency risk, commodity price risk and other price risk, such as equity price risk. The Group is not exposed to commodity price risk and equity price risk. Financial instruments affected by market risk include loans and borrowings and deposits with banks. The exposure to other two risks and their management is explained below

Foreign Exchange Risk 48.4

Foreign currency risk is the risk that the value of a financial asset or a financial liability will fluctuate due to change in foreign exchange rates. It arises mainly where receivables and payables exist due to transactions in foreign currency. At year end date the Group's exposure to foreign currency risk is limited since there are no significant balances receivable or payable in foreign currency.

48.5 Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long-term debt obligations, short term borrowing and finance leases with floating interest rates.

Capital Risk Management 48.6

The primary objective of the Group's capital management is to maintain healthy capital ratios, strong credit rating and optimal capital structures in order to ensure ample availability of finance for its existing and potential investment projects, to maximize shareholder value and reduce the cost of capital.

The Group manages its capital structure and makes adjustments to it in the light of changes in economic conditions. The Group monitors its capital by using the debt equity ratio. The Group includes within debt its long term loan, liabilities against assets subject to finance lease and short term finances and within equity its share capital and reserves. 2017

49 Fair value of financial instruments

The carrying value of all financial assets and liabilities reflected in the financial statements approximate their fair value. Fair value is determined on the basis of objective evidence at each reporting date.

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: Other techniques for which all inputs which have a significant effect on the recorded fair values are observable either, directly or indirectly

Level 3: Techniques which uses inputs that have a significant effect on the recorded fair value that are not based on observable market data
